

TAHITIAN NONI® JUICE

Tahitian Noni® Juice

We introduced TAHITIAN NONI® juice to the market in 1996 and we continue to lead the way in research, development and quality assurance. TAHITIAN NONI juice is the result of Morinda's focus and dedication to the *Morinda citrifolia* plant. Other companies offer *Morinda citrifolia* products as secondary products. Our entire company focus is based on the belief we have in the benefits of pure TAHITIAN NONI.

The *Morinda citrifolia* plant has been recognized in French Polynesia for thousands of years for its beneficial properties. In this century, scientists have shown that this amazing plant can help support the immune system, assist hormones that coordinate bodily function and help cells absorb nutrients.

TAHITIAN NONI juice is made from pure *Morinda citrifolia* fruit juice, not from dried or powdered noni fruit. Our proprietary production and flavoring process ensure that all the beneficial properties of the *Morinda citrifolia* fruit are optimized in every bottle. Our unique flavoring system, using other natural fruit juices, gives TAHITIAN NONI juice a smooth, pleasant taste.

TAHITIAN NONI juice is the best, most bio-available source of active ingredients found in the *Morinda citrifolia* fruit. Leading scientists endorse our product and we are the only company in the world to maintain a full-time lab to study *Morinda citrifolia*.

TAHITIAN NONI juice is available in our original 32 oz. glass bottles. Now you can also purchase the new TAHITIAN NONI handi-pak that includes four 250 ml easy-to-carry pouches. Now you can have easy access to TAHITIAN NONI juice anytime, anywhere.

Accept no substitutes. We are the first and only authentic TAHITIAN NONI juice. When it comes to *Morinda citrifolia* -- We are the undisputed leader.
